

# Conditioning Systems for Forming Wires, Press Felts, and Dryer Fabrics

CVN Vooner Paper Machinery, Greeneville, TN and our parent company, Vooner FloGard Corporation of Charlotte, NC, would like to announce the launching of our new user friendly websites at:

[www.cvnvooner.com](http://www.cvnvooner.com) and [www.vooner.com](http://www.vooner.com)

Visit our websites for *full product descriptions, to evaluate and compare products, request quotes, request information and to purchase nozzles, poly strips and spare parts online.*

We are a one stop shop for your paper machine dewatering needs. On the press section we supply *suction boxes* complete with *covers or strips* that we manufacture in TN. Complete coverage cleaning is delivered from *Shenandoah™ actuated and stationary showers*, with automated or manual brush cleaning. This strategic fabric cleaning equipment is powered by *Vooner vacuum pump systems* complete with drives and motors, *inlet separators with unloader pumps or gravity drop leg, and discharge separators.*

On the forming wire, we can redesign your *hiVac discharge systems*, supply or repair *hiVac boxes or gravity foil boxes* complete with *polyethylene foils* which we manufacture. We can provide all positions of wire cleaning stationary and actuated showers.

We are helping others, how can we help you?
